ON

NYAY AI : PERSONAL AI LAW ADVISOR FOR INDIA

GUIDED BY : DR. SWATI ADEKAR
PRESENTED BY : ADESH G. LOKHANDE
ROLL NO. : MC250005CA

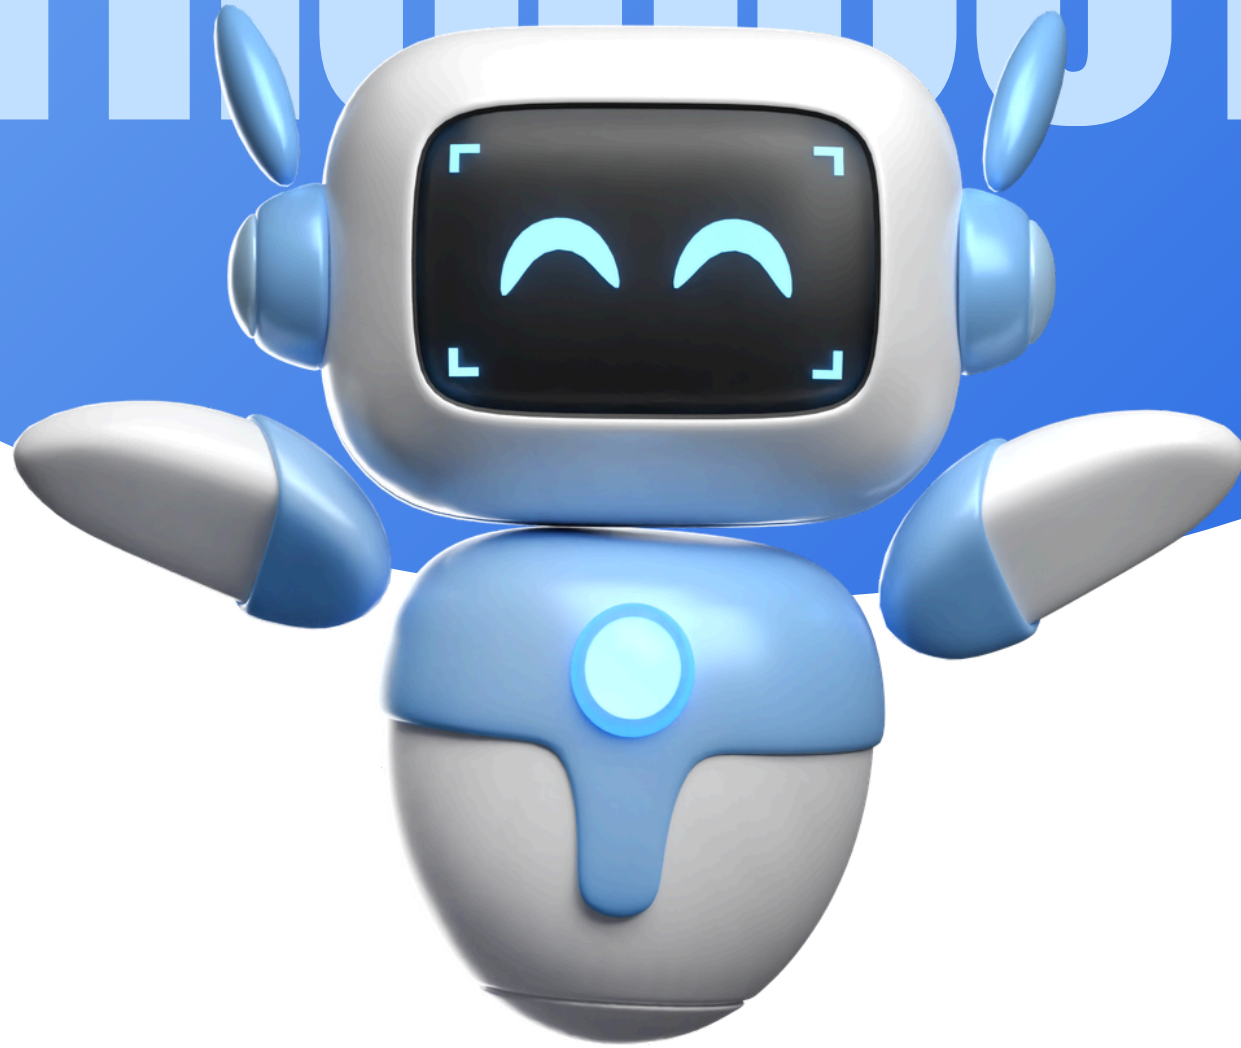

PERSONAL AI LAW ADVISOR FOR INDIA WITH CONTEXT MEMORY

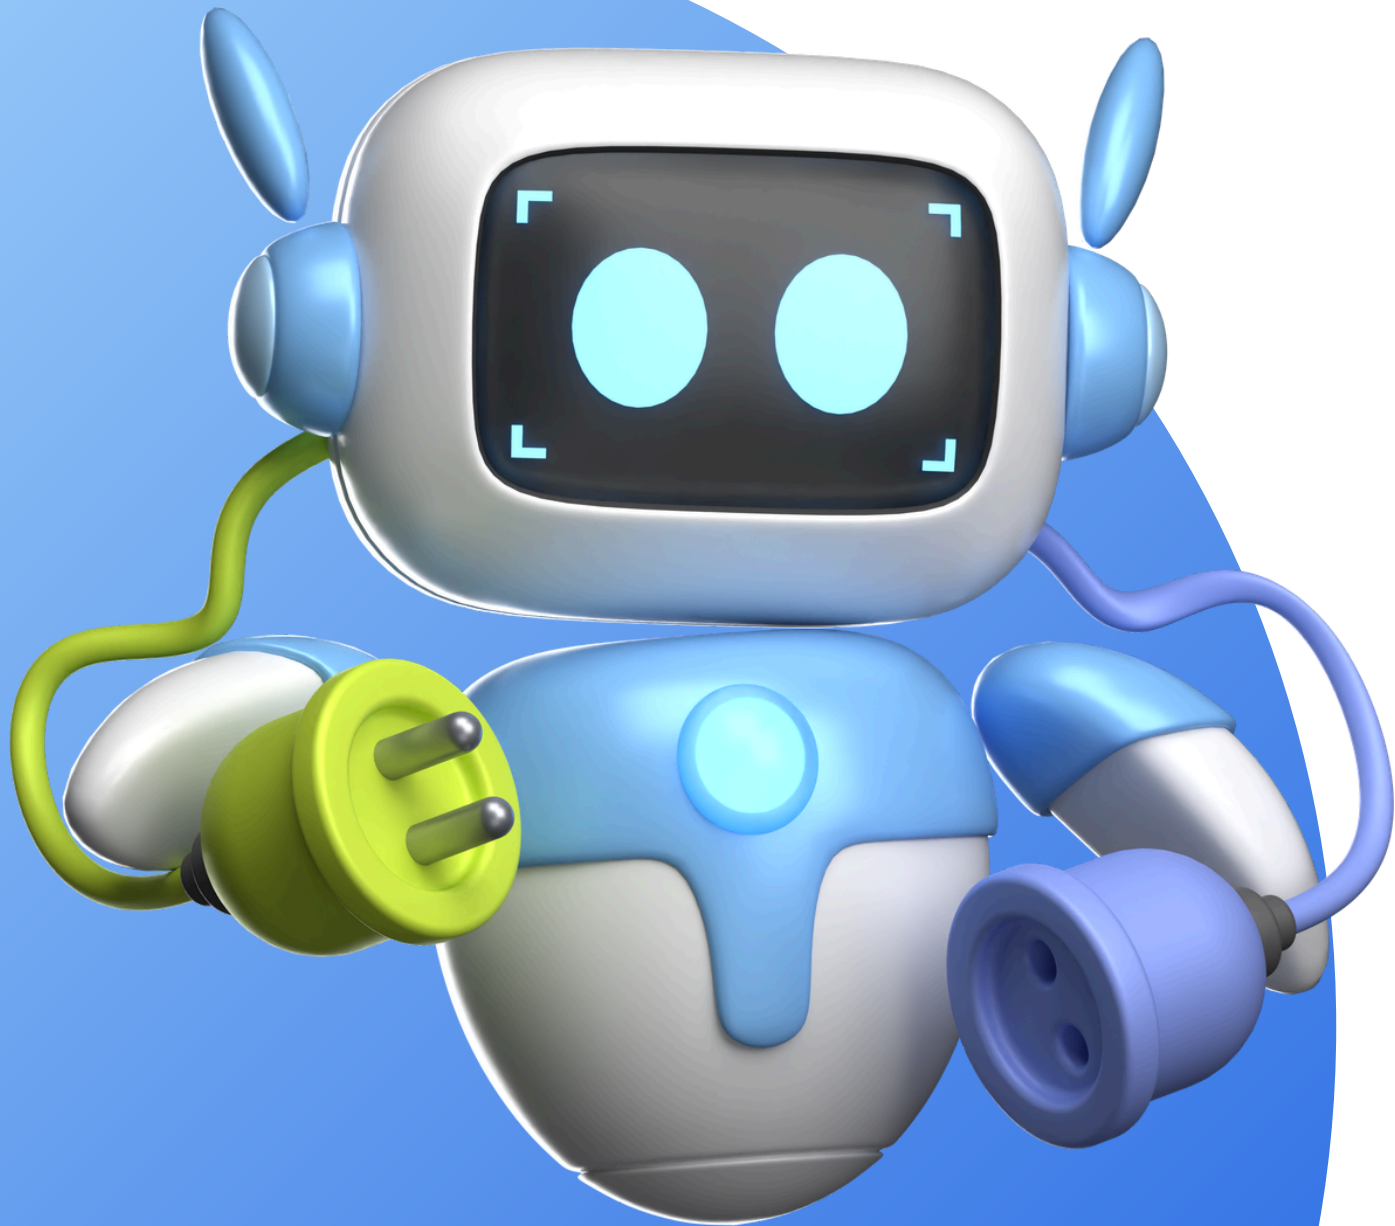

INTRODUCTION

- 01. Nyay AI is a Personal AI Law Advisor for Indian legal queries.**
- 02. It uses context memory to remember previous conversations.**
- 03. It allows natural follow-up questions.**
- 04. Provides explanations of the Indian Constitution and IPC sections.**
- 05. Makes legal information easy and accessible.**

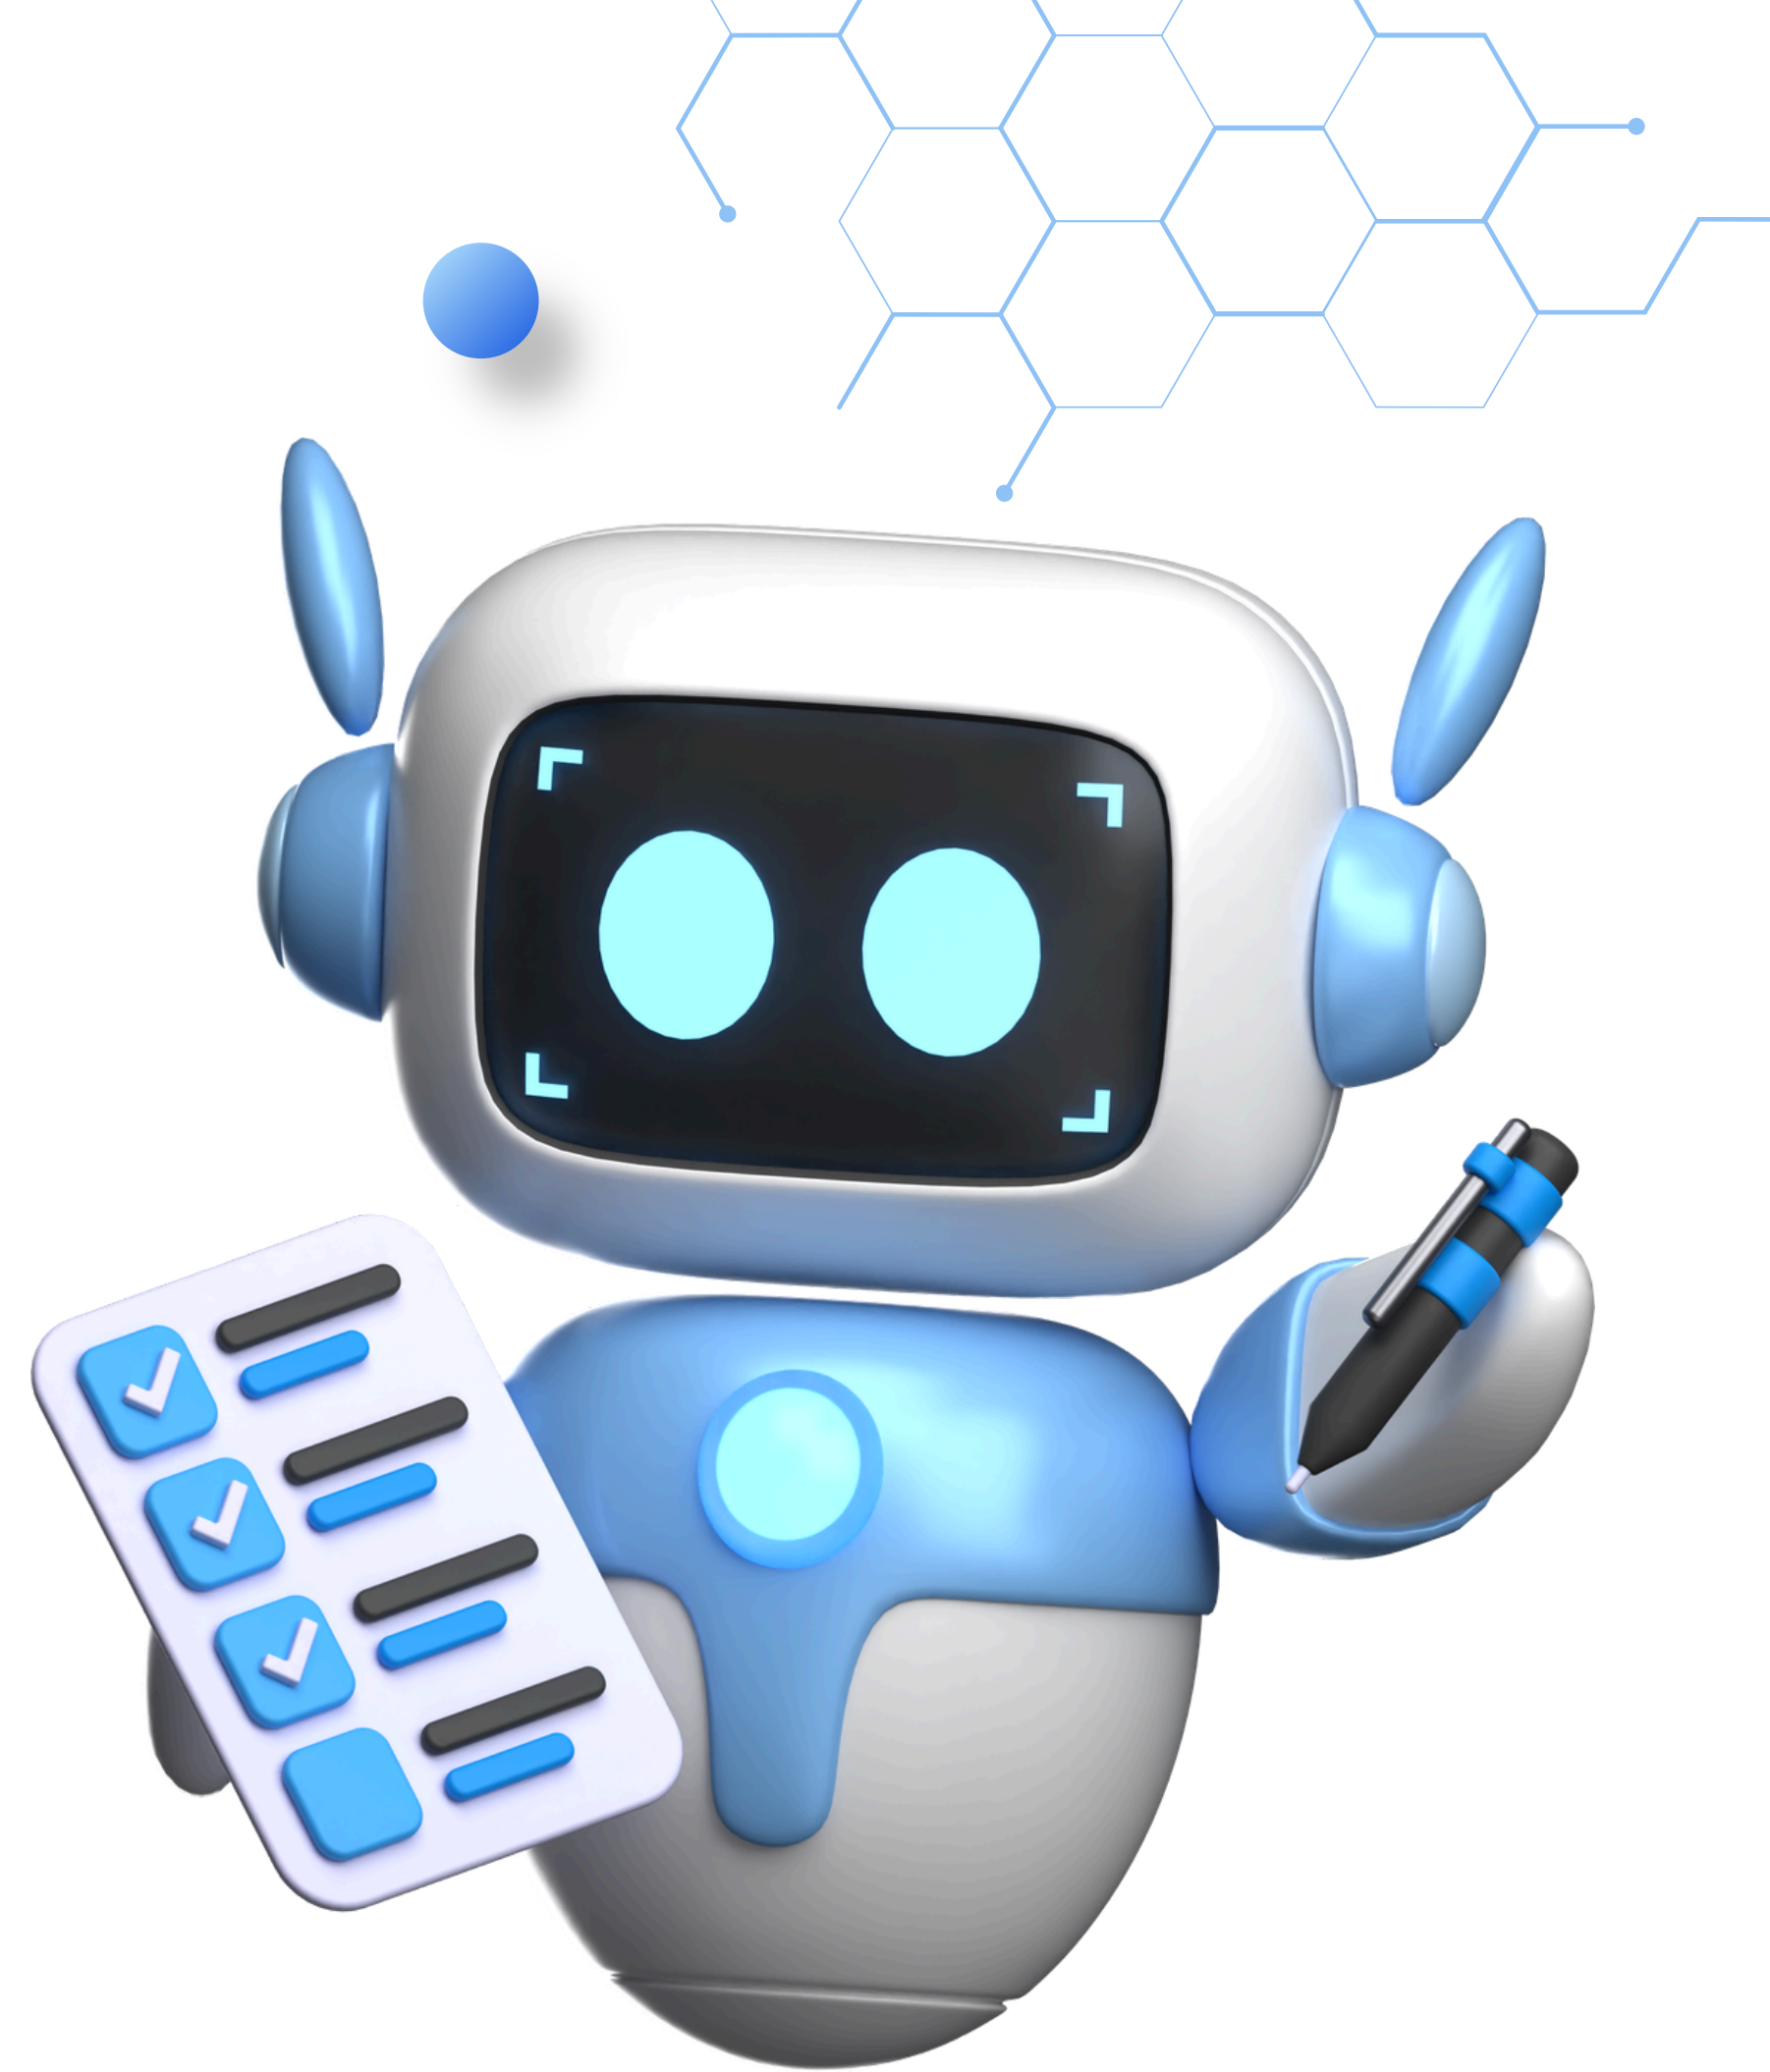

PROBLEM STATEMENT

01. Legal information is difficult for common people to understand.
02. Legal documents contain complex terminology.
03. Traditional chatbots do not remember conversation context.
04. Need for an intelligent legal guidance system.

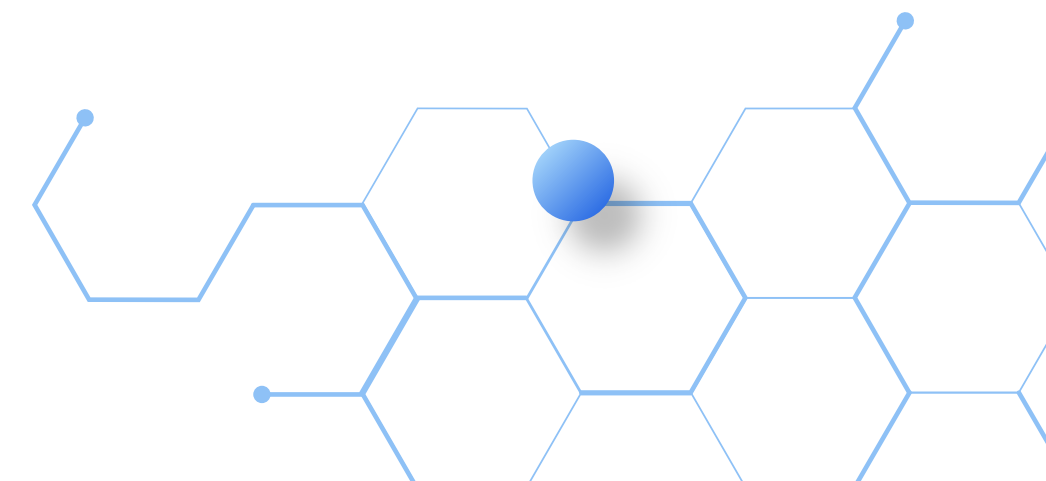

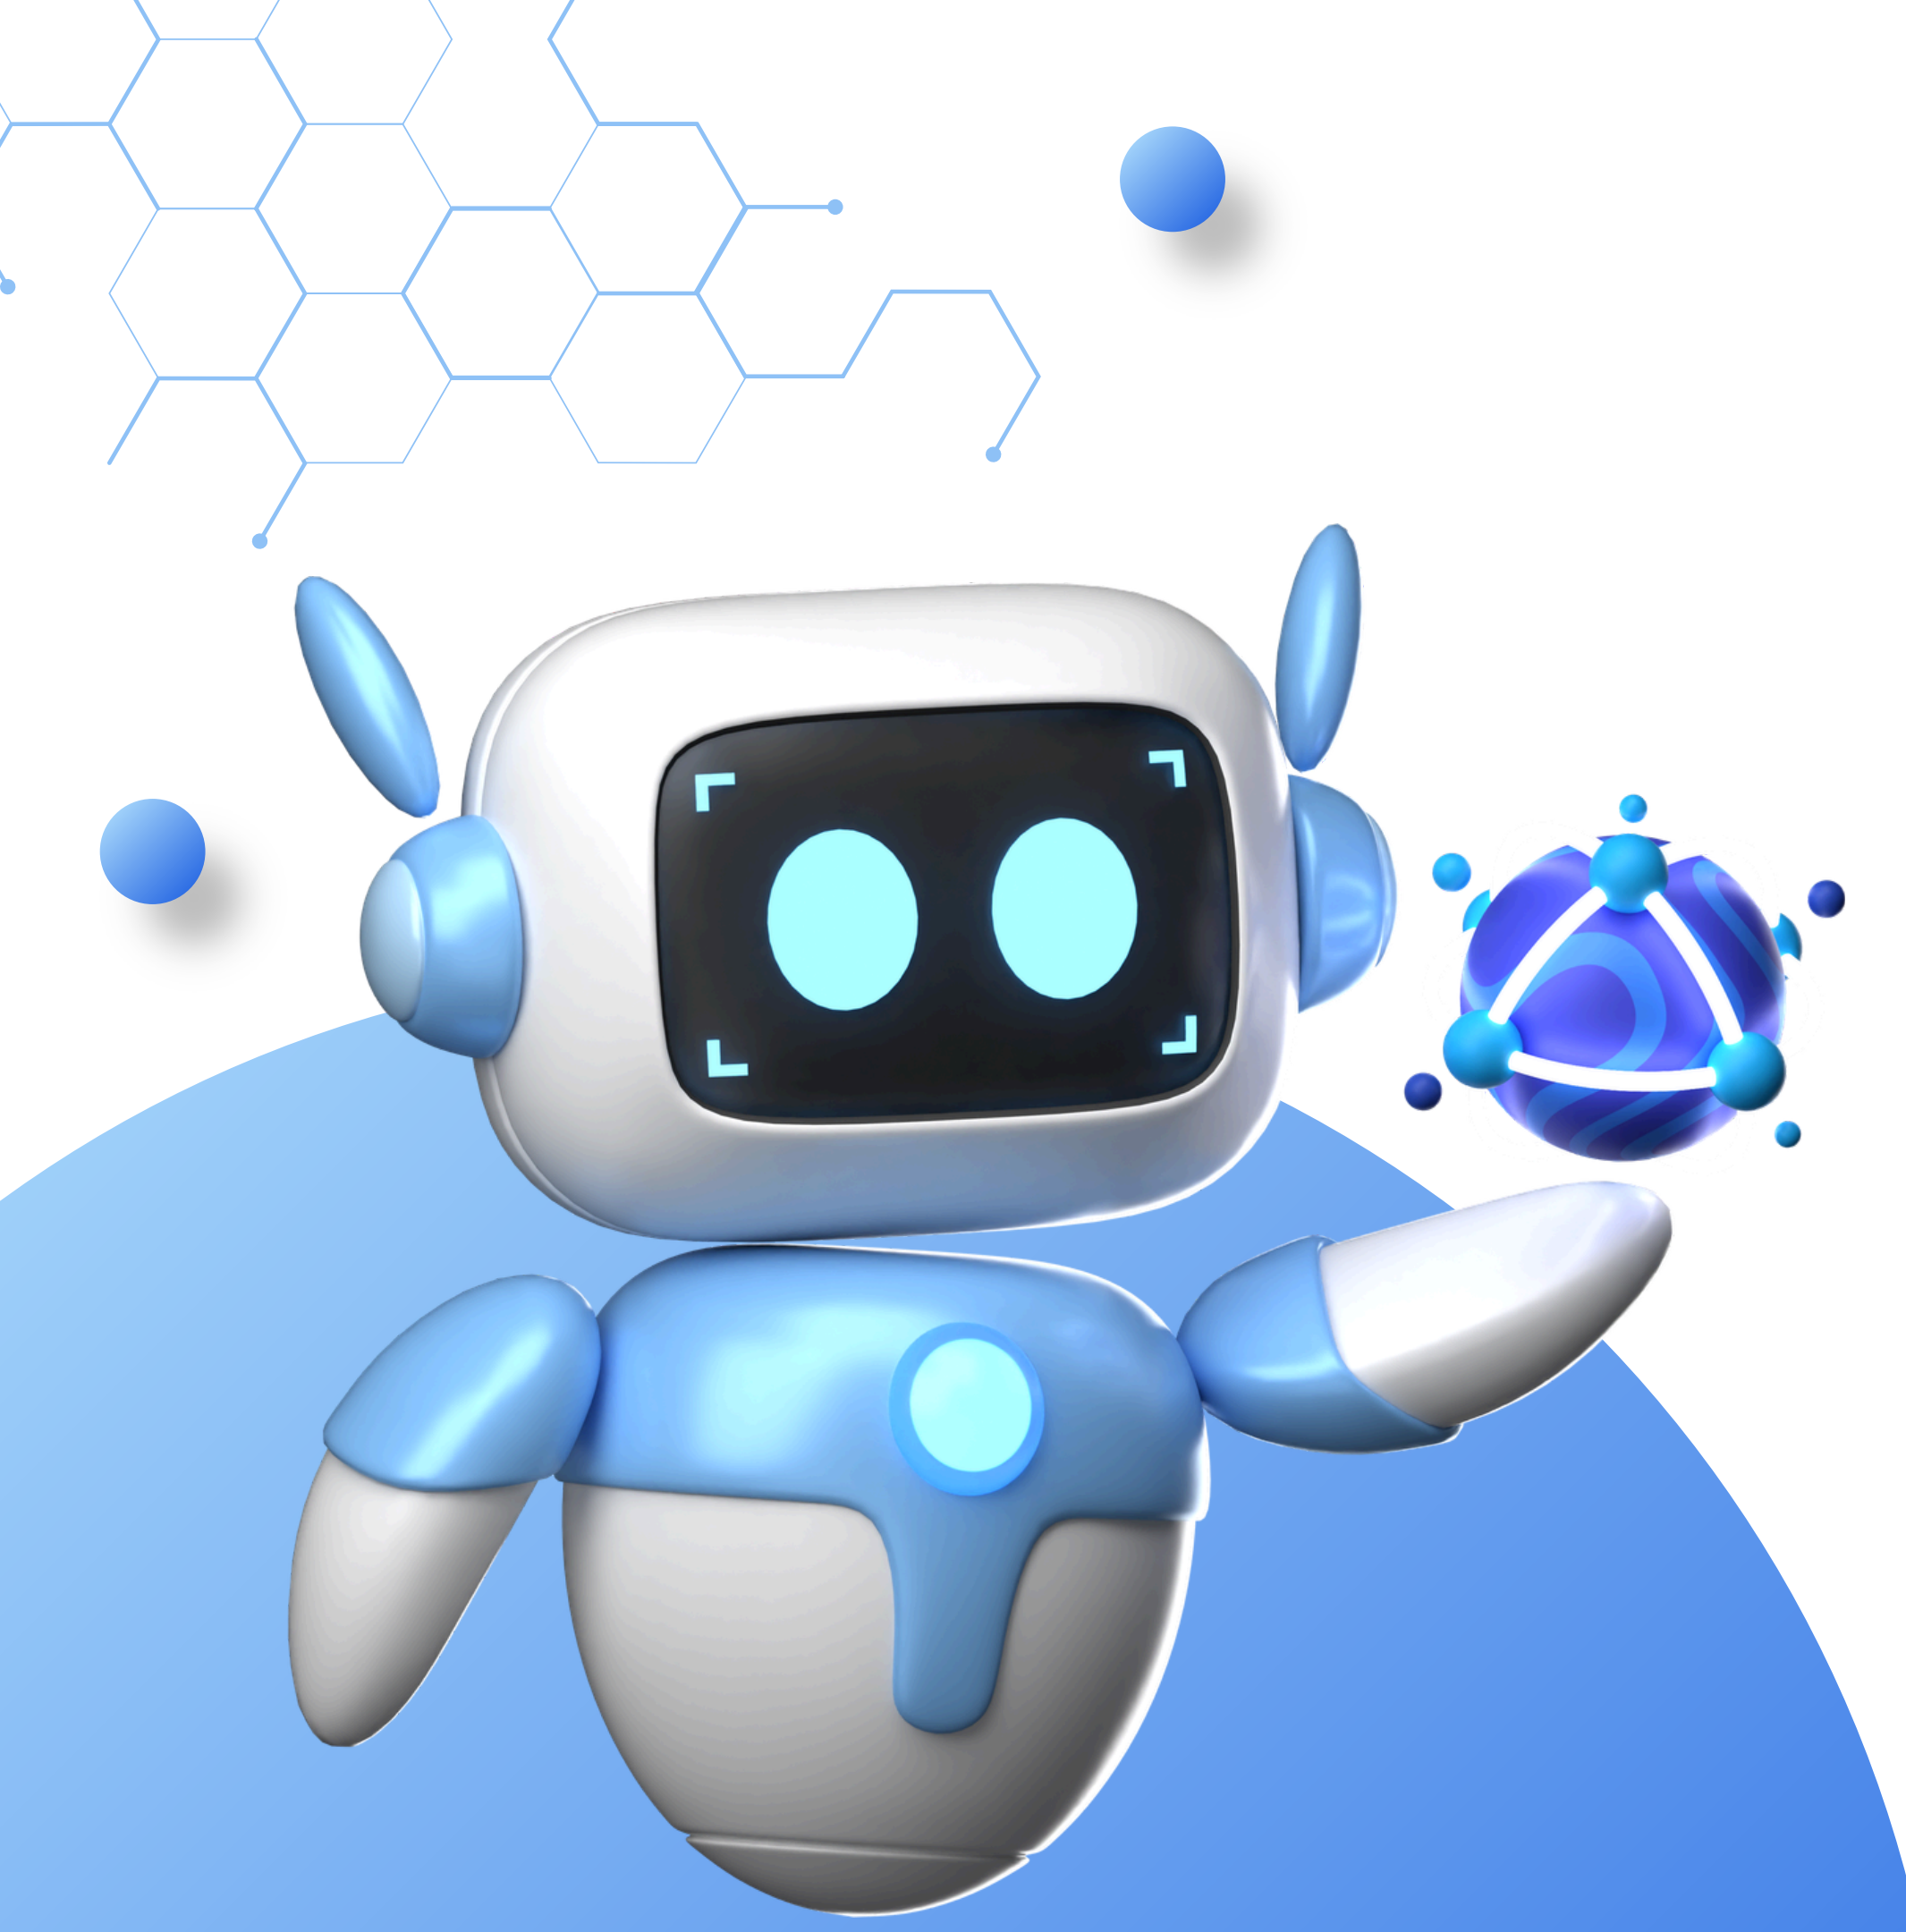

OBJECTIVES OF THE PROJECT

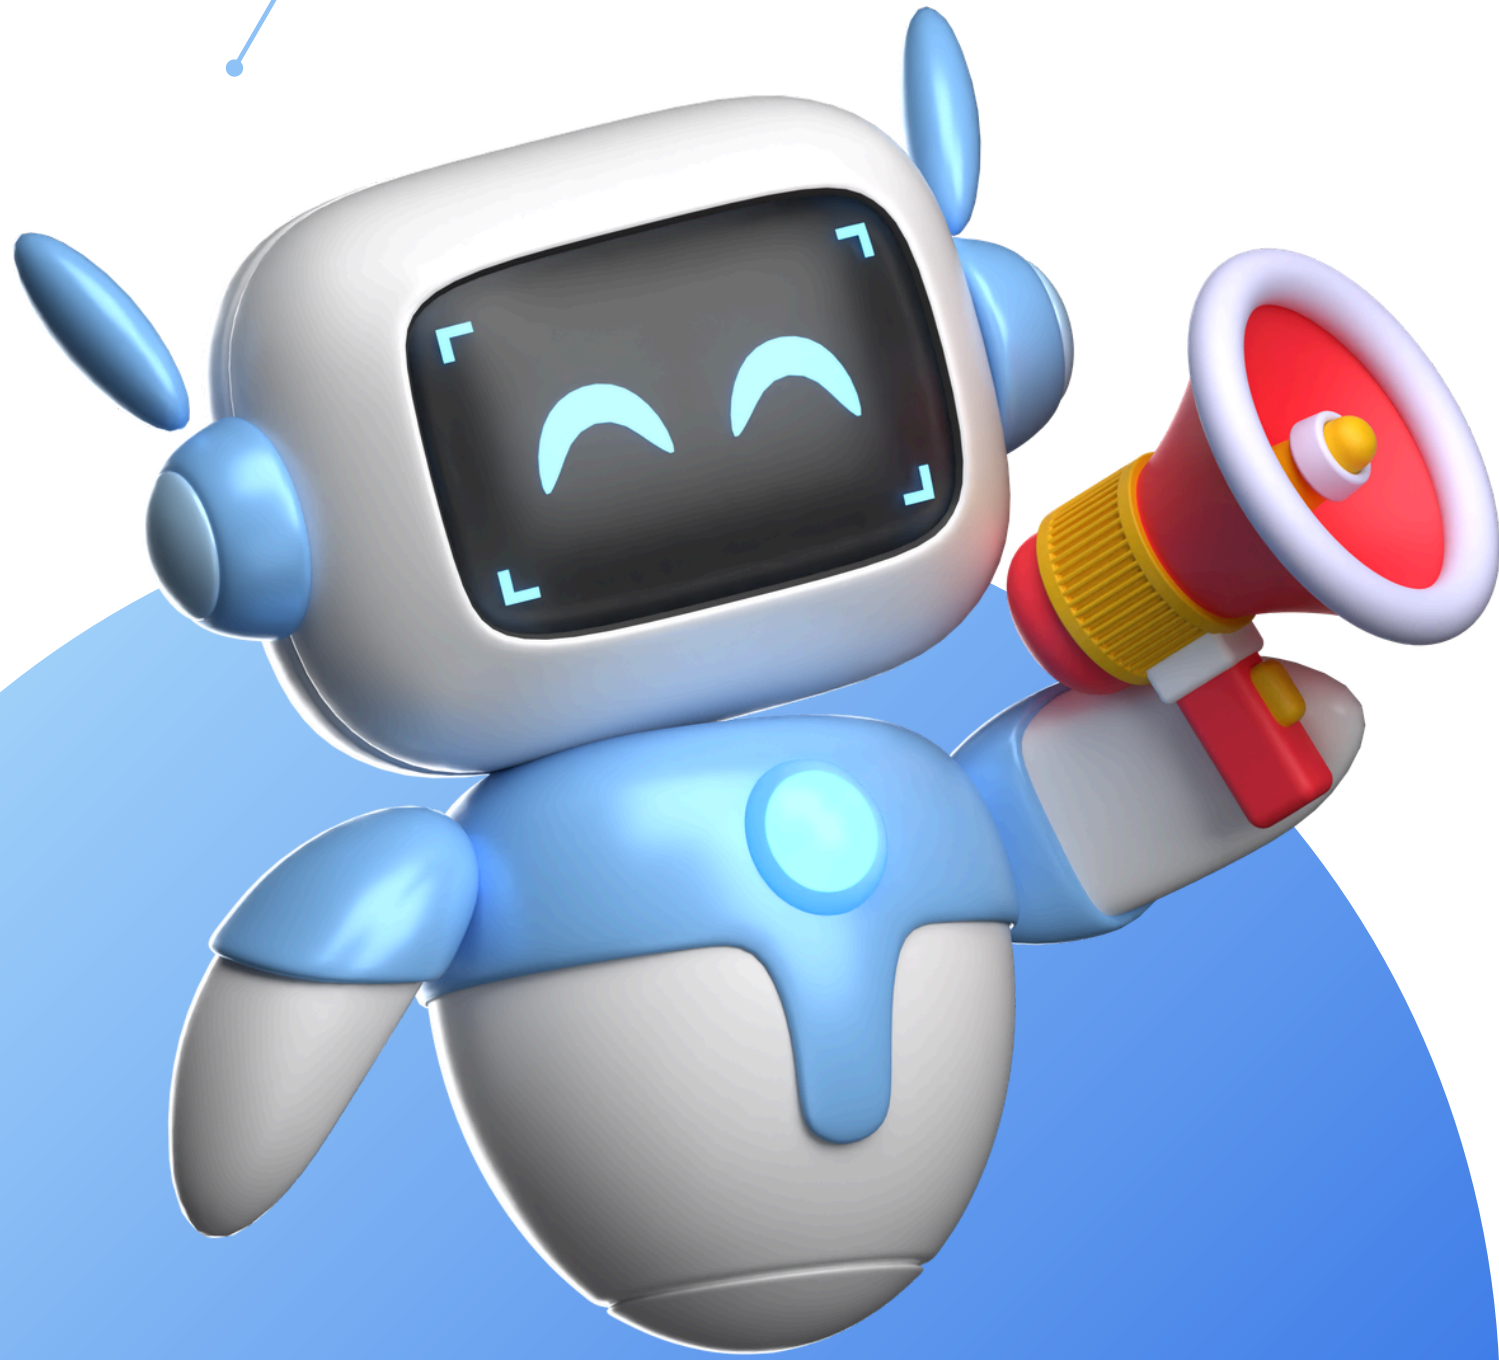

- To develop an AI based legal advisor.
- To implement context aware conversation.
- To provide Indian legal knowledge.
- To generate case summaries.
- To improve response speed using GPU.

SCOPE OF THE PROJECT

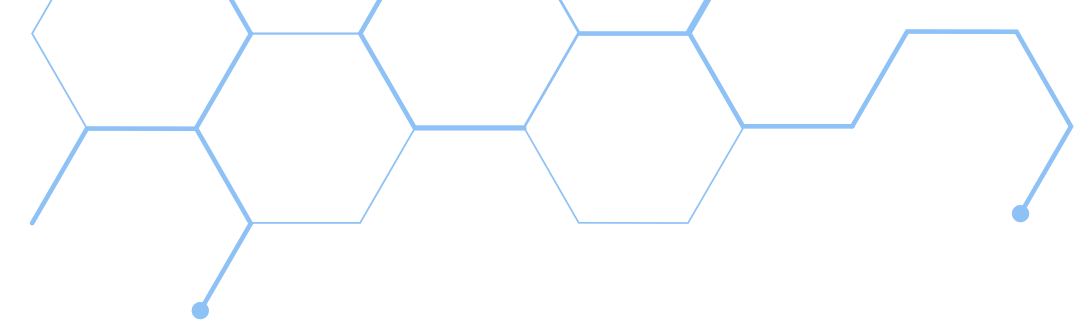

- **Legal assistance for Indian law.**
- **Helpful for students and common users.**
- **Can be used for legal education.**
- **Future support for regional languages.**
- **Future document analysis features.**

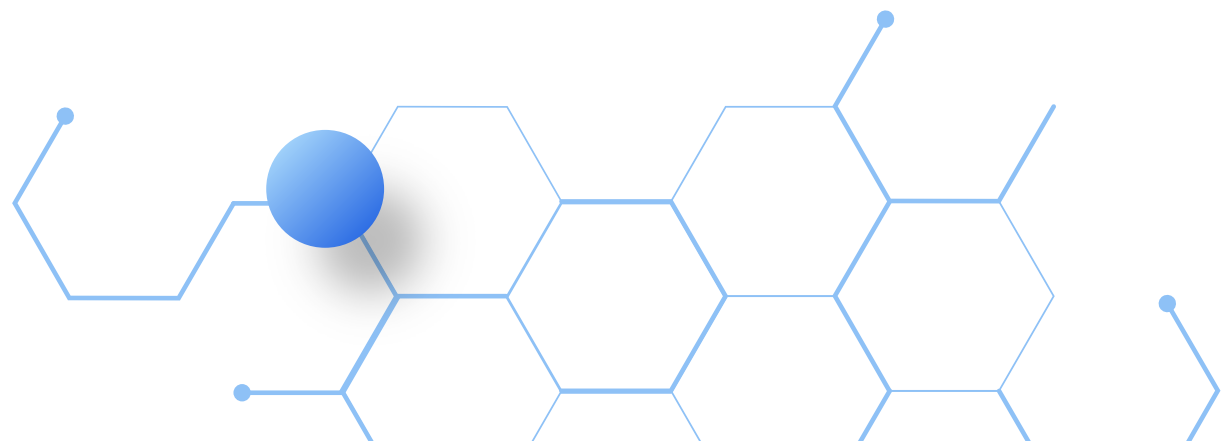

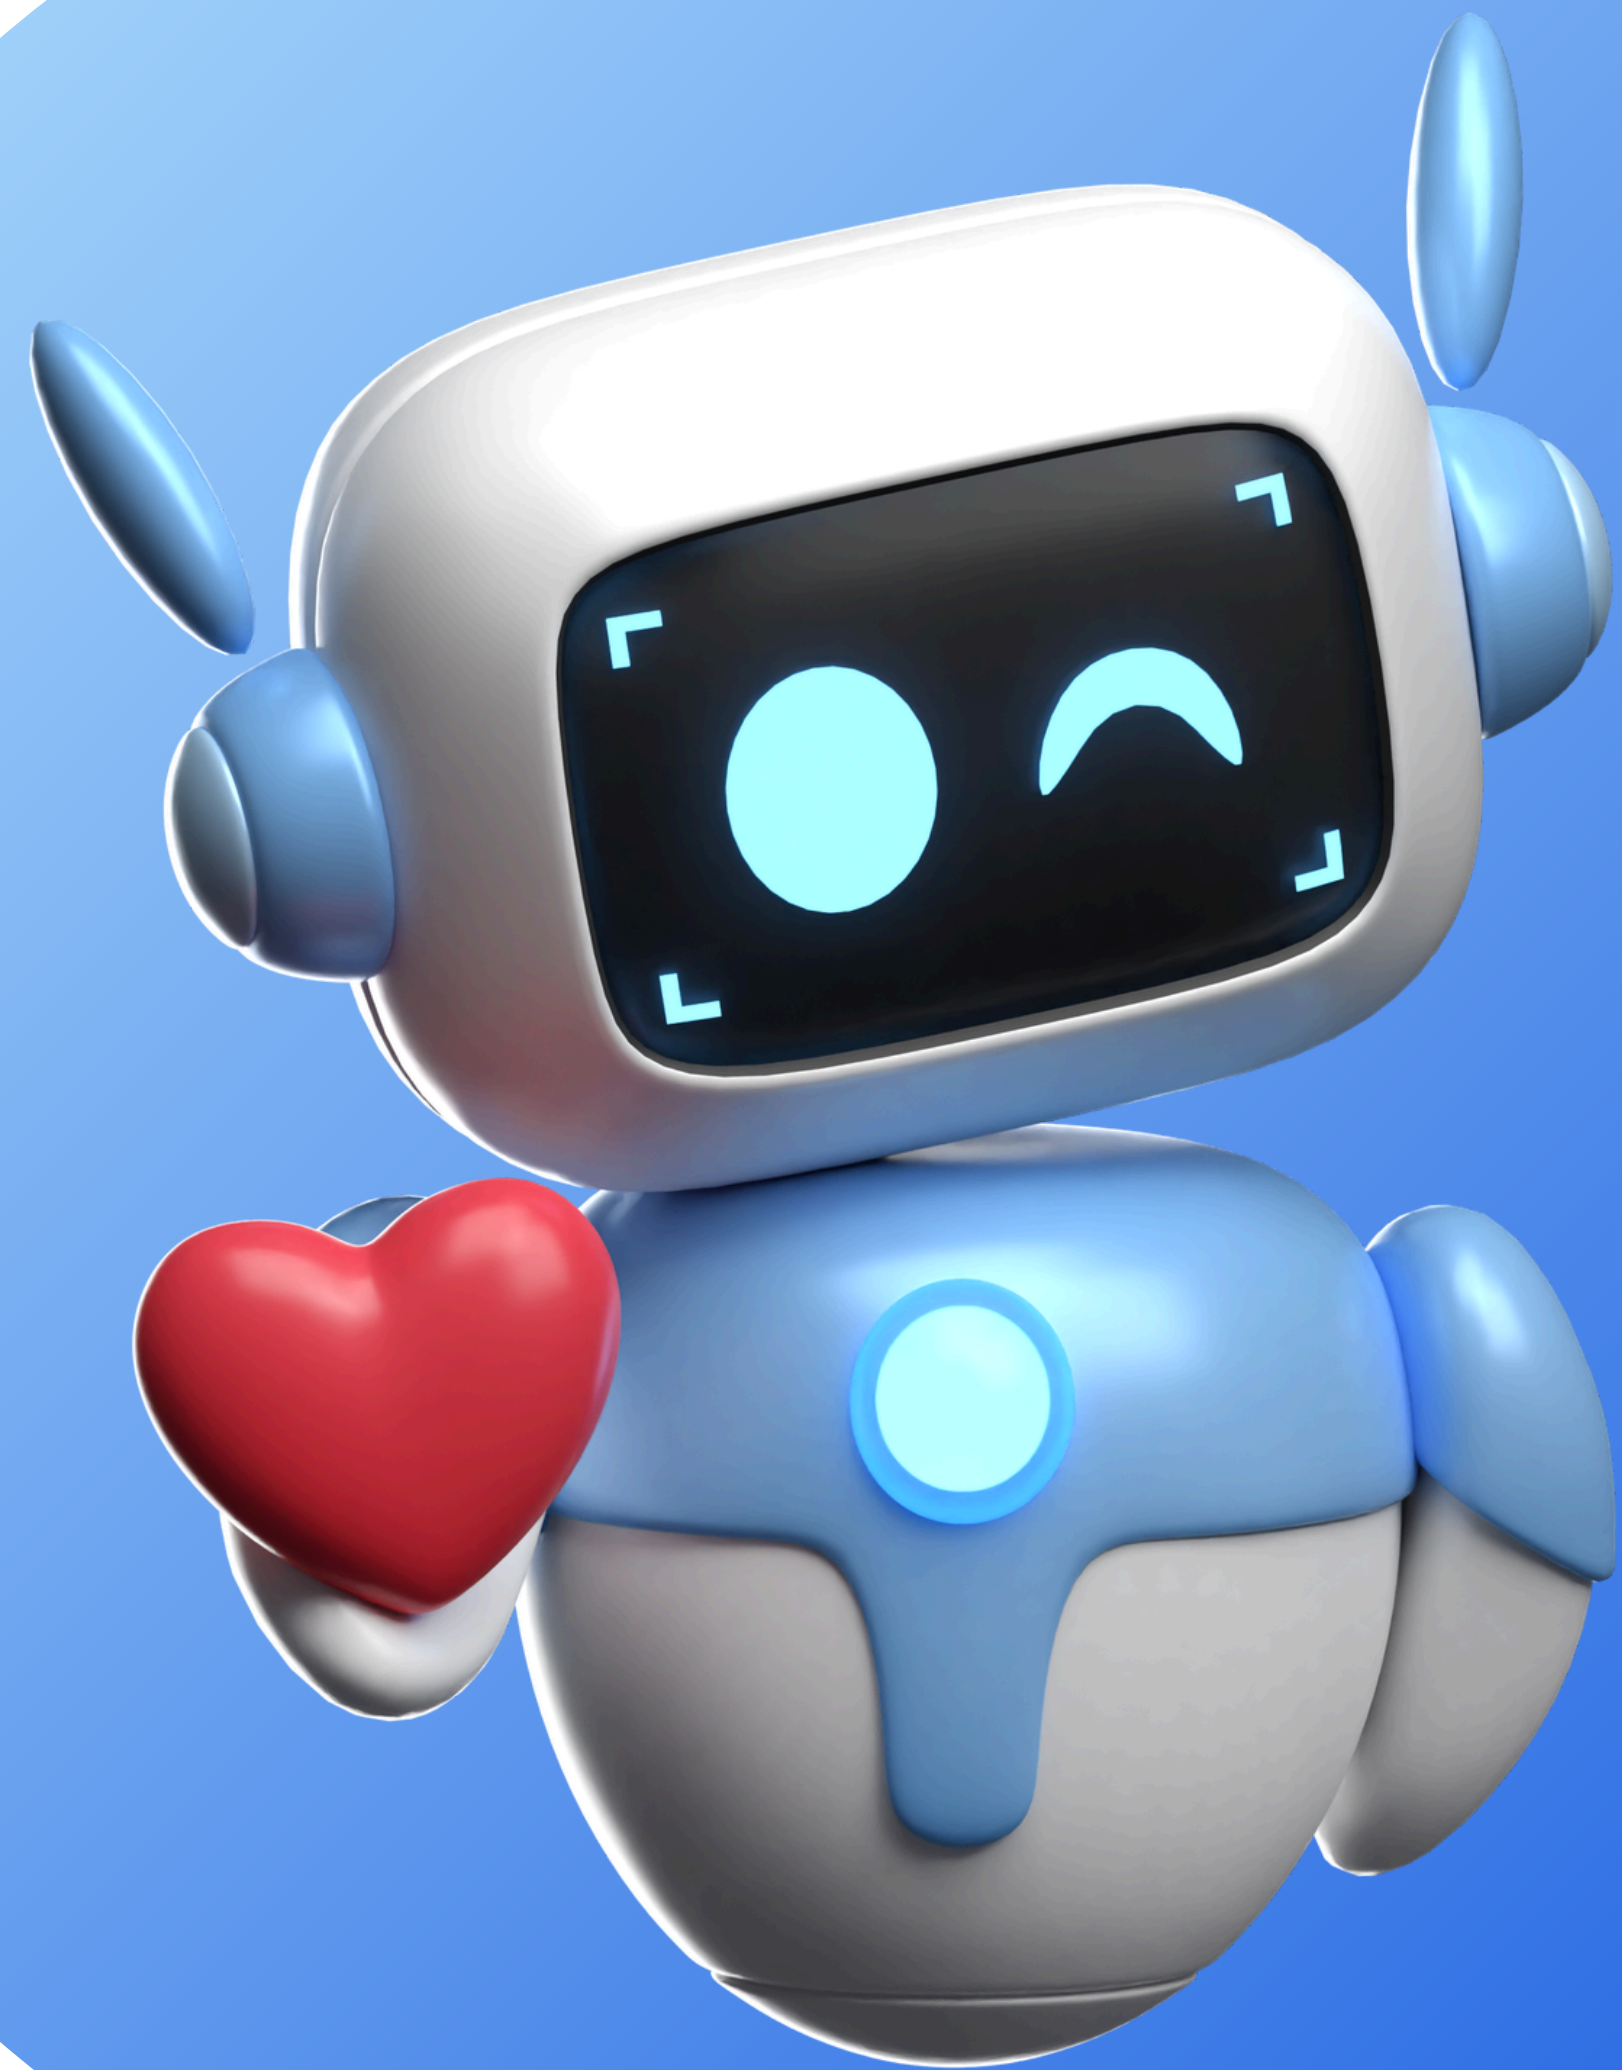

LITERATURE SURVEY

- 01. Existing chatbots are mostly stateless.**
- 02. LLaMA models are widely used for AI conversations.**
- 03. Limited AI tools focused on Indian law.**
- 04. Context memory improves chatbot interaction.**

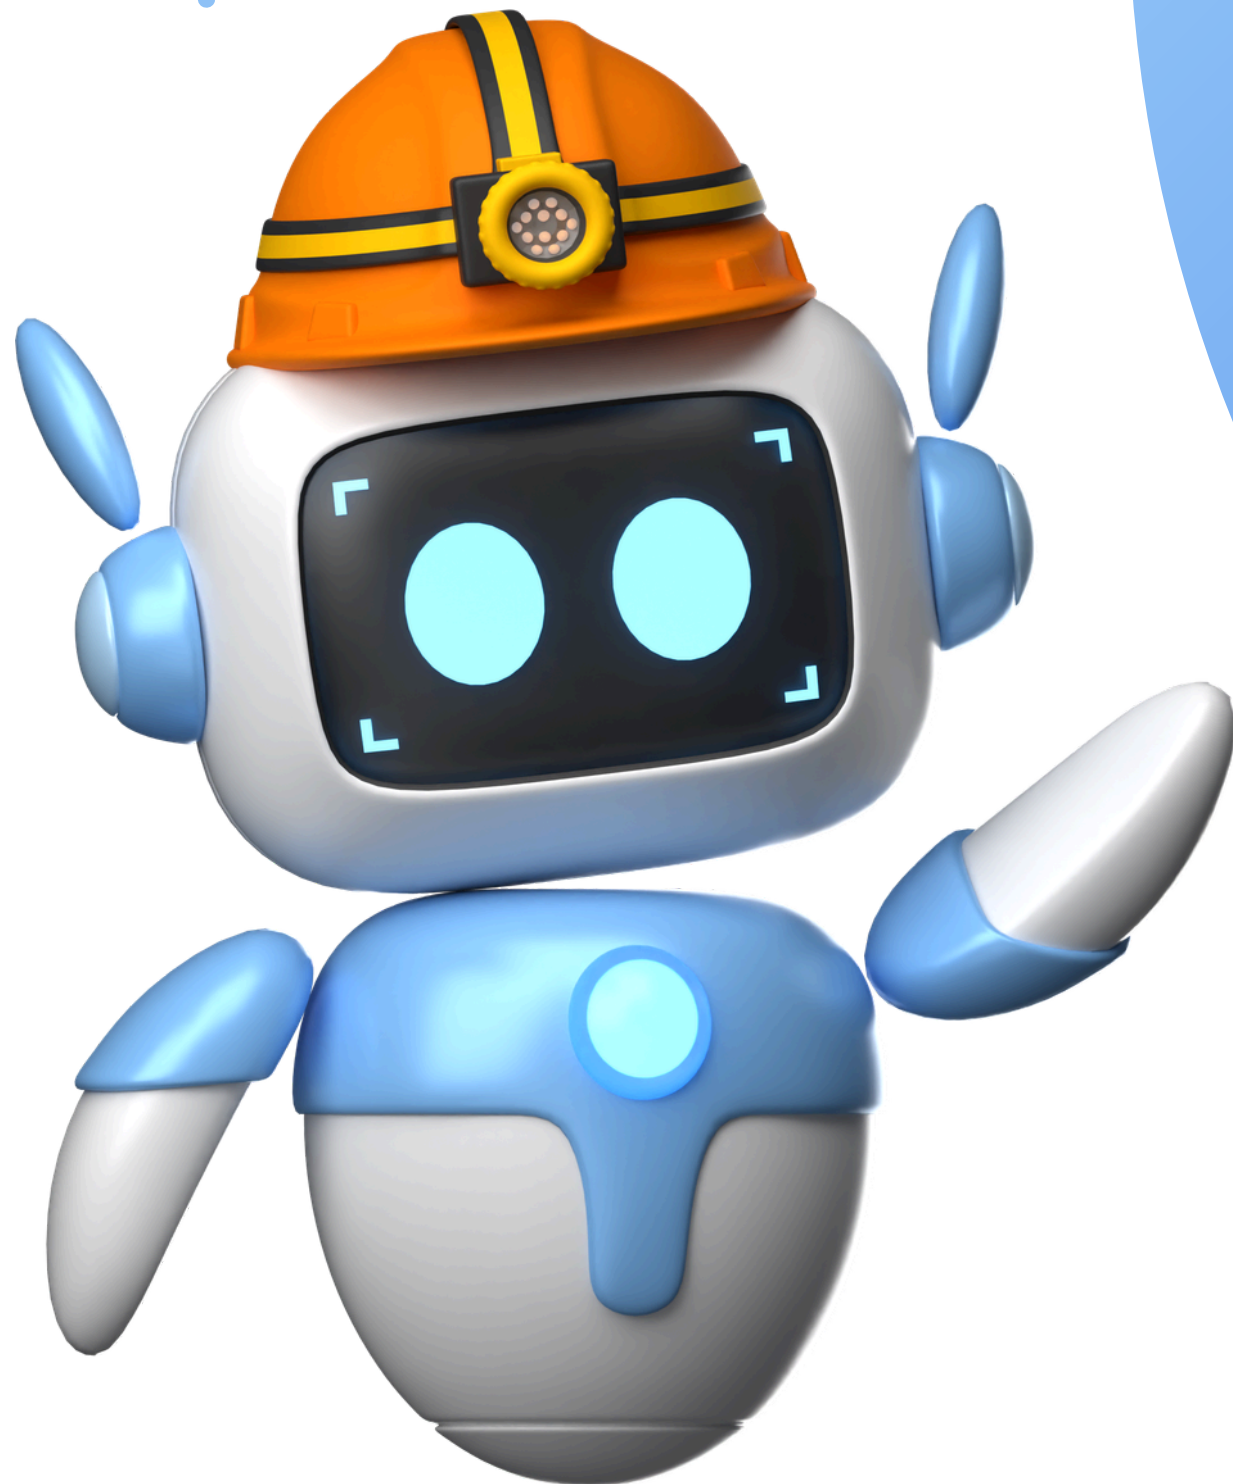

PROPOSED SYSTEM

- 01** AI chatbot for Indian legal queries.
- 02** Maintains conversation history.
- 03** Generates case summaries.
- 04** Modern user interface.
- 05** Flask-based backend integration.

METHODOLOGY

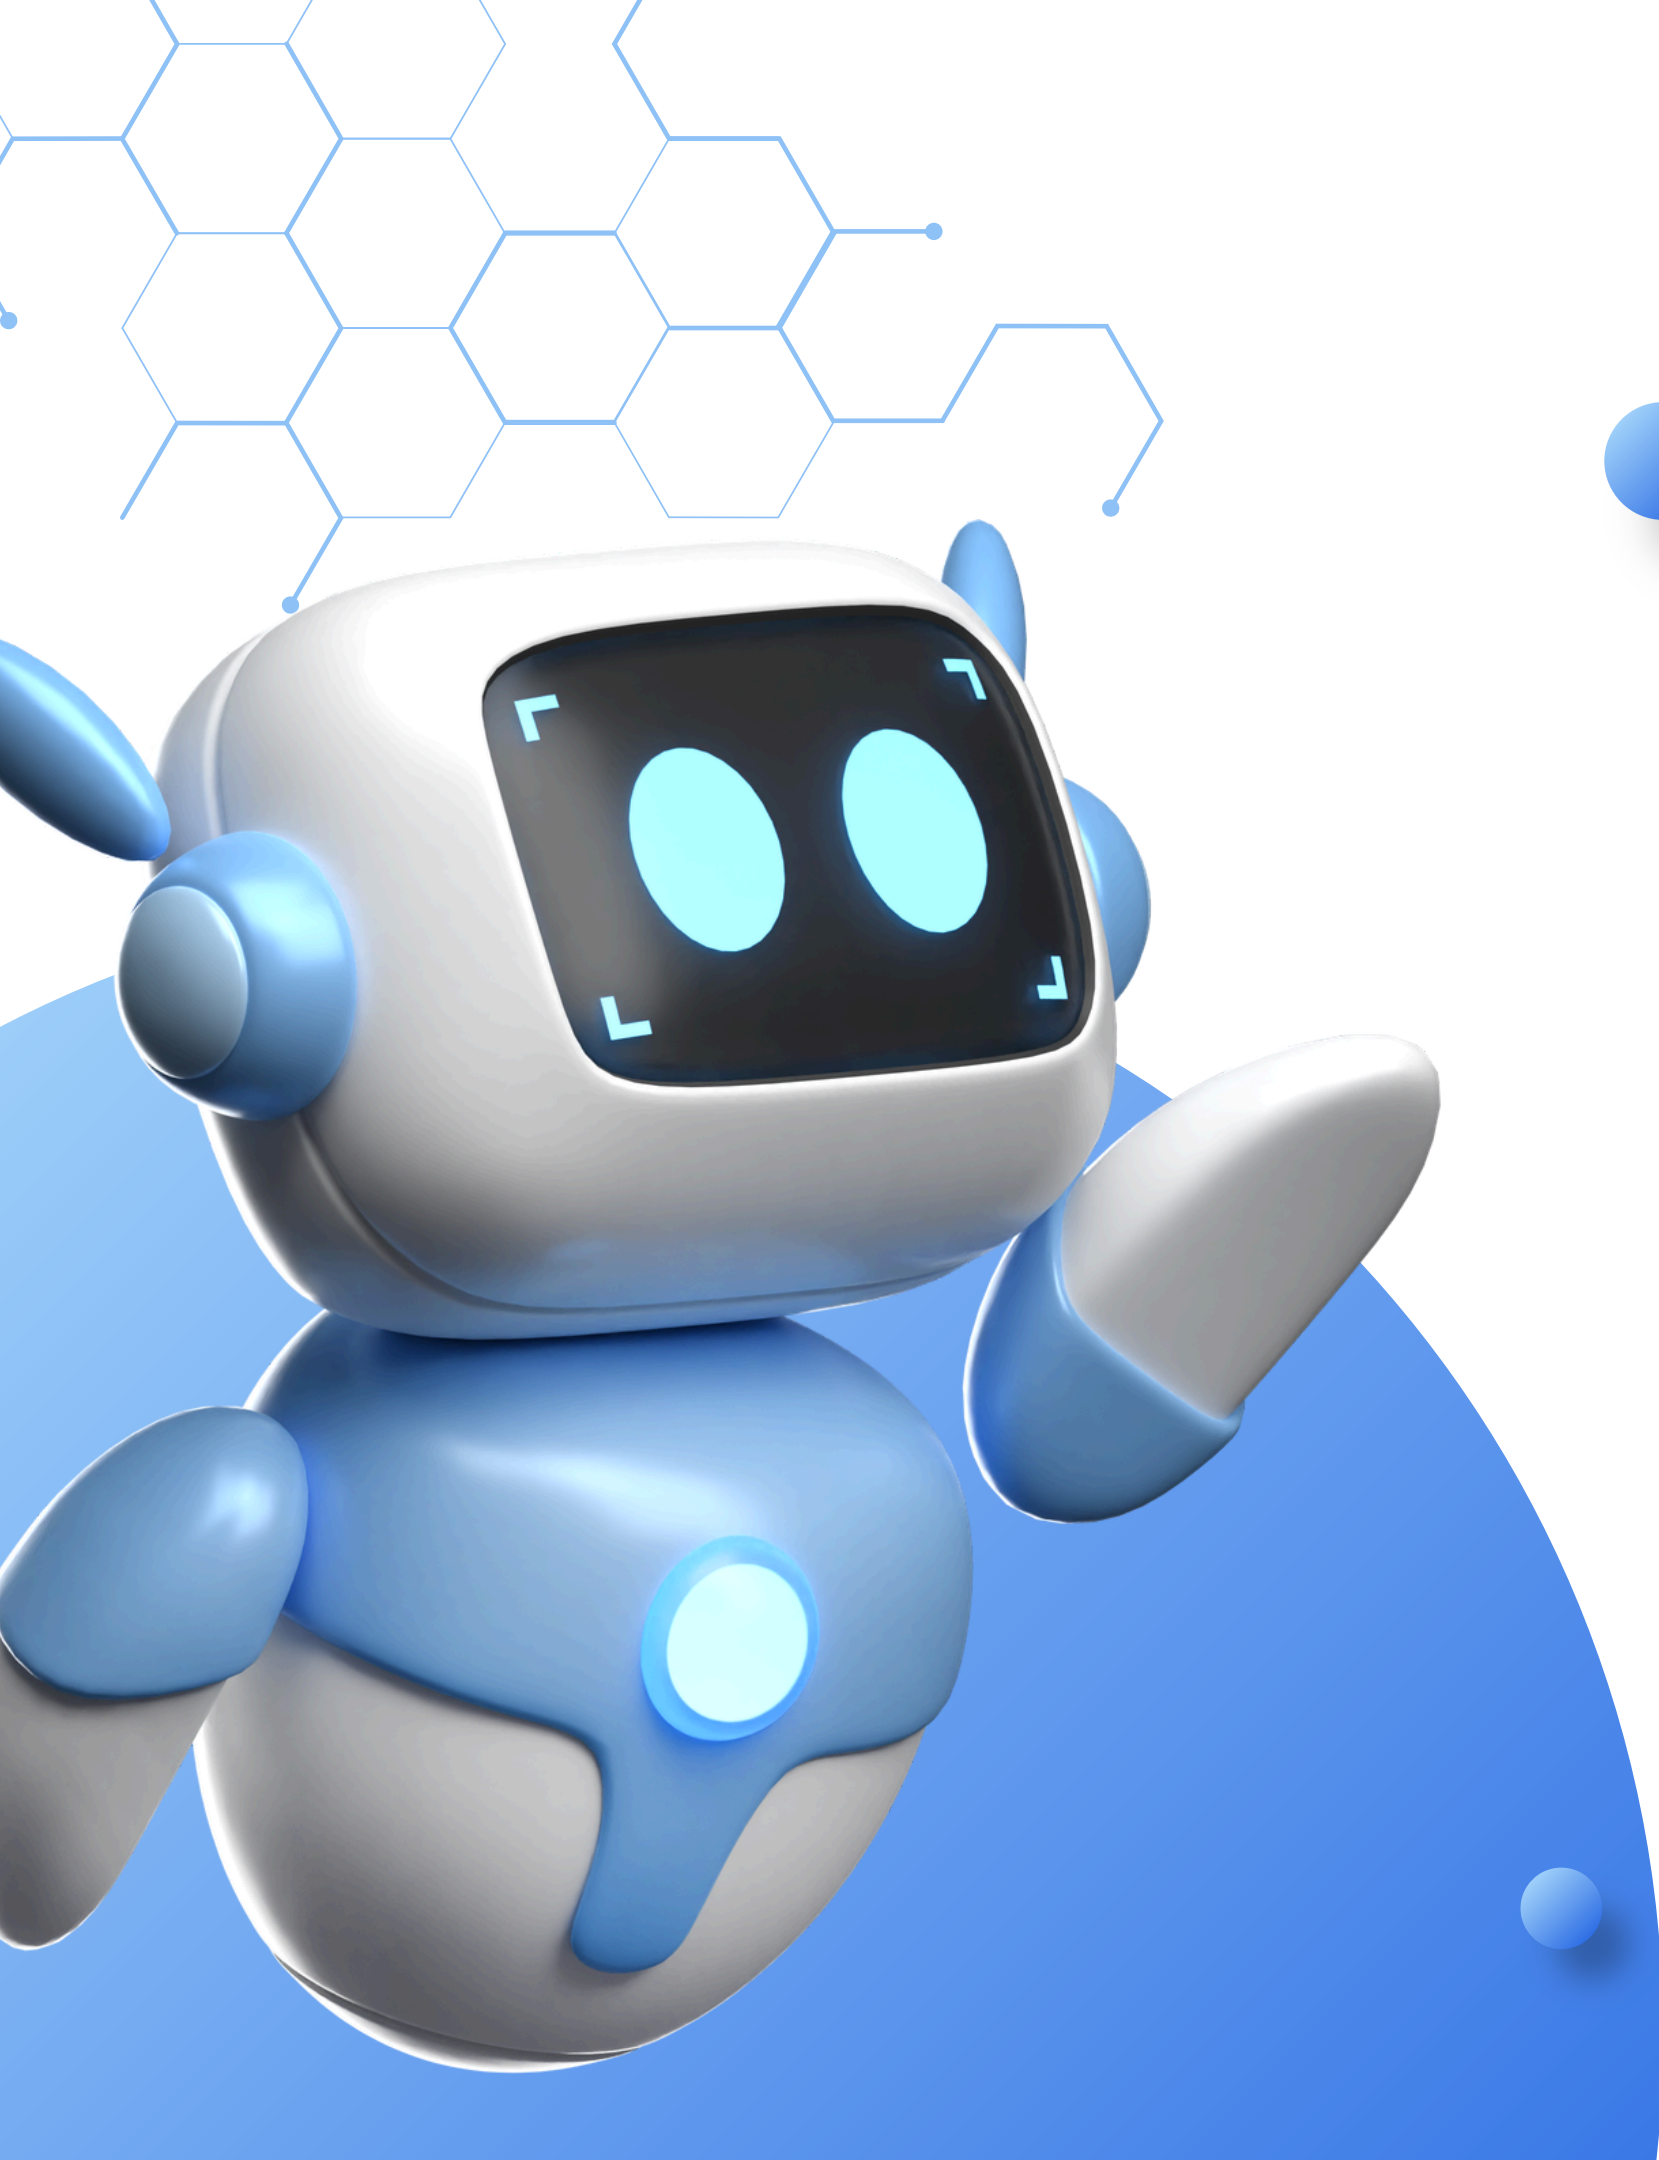

- LLaMA 3.1 model used as foundation model.
- Flask used for backend processing.
- Frontend sends conversation history.
- Meta prompt used for context generation.
- GPU used for faster processing.

EXPECTED OUTCOME

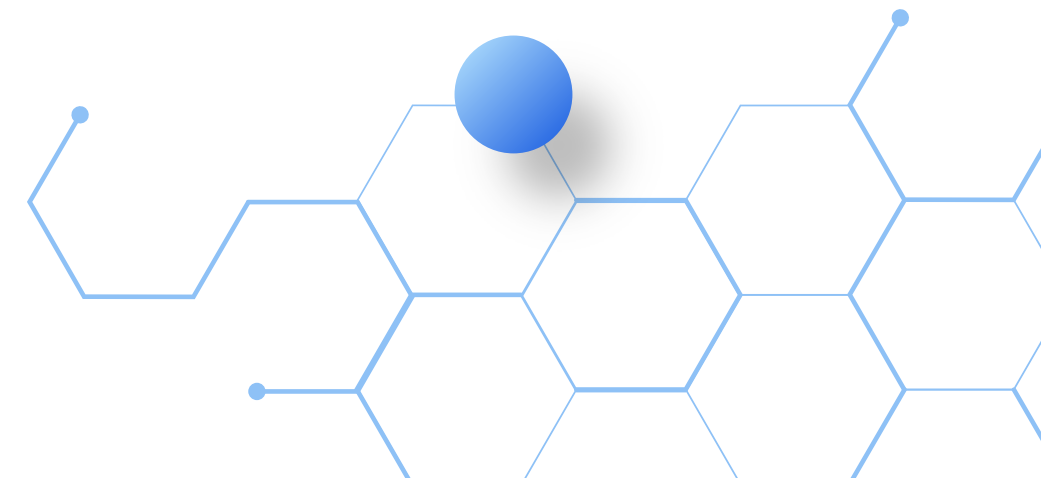

- 01** Functional AI legal assistant.
- 02** Quick legal guidance.
- 03** Natural conversation experience.
- 04** Simplified legal explanations.

CONCLUSION

- 01** Nyay AI is an intelligent legal assistant.
- 02** Combines AI with conversational memory.
- 03** Makes legal information accessible.
- 04** Can be extended with advanced features.

THANK YOU
